Franklin Township is planning for the expansion of the Franklin Township Park. The Master Plan will explore the assets of the existing park site and determine how each can be enhanced to better serve the recreation needs of the community. To date, the master planning process has evaluated the park site and explored project goals with an appointed study committee.

You are invited and encouraged to attend the pre-final design presentation to voice your thoughts and ideas on the future plans for redevelopment of the park. Park planning consultants will provide a brief background of the project and summarize the findings of the work completed to date. Your thoughts and ideas are important and welcome. Adequate time will be provided for questions and answers. Your comments will be incorporated into the final design and will help to establish priorities for future development. To view information on the project to date, please visit the township's website at www.ftwp.com.

In addition, The Township is preparing a comprehensive plan to address community growth and development over the next 10 to 15 years. Topics discussed will include the comprehensive planning process and purpose of the comprehensive plan, the results of the recent community survey, community goals.

Please mark your calendars and plan to attend. Share this invitation with others. If unable to attend, but want to comment, please forward your comments to
Andy Mears at 717.741.6269 or amears@jmt.com
